

DI DANISH DEFENCE AND SECURITY INDUSTRIES ASSOCIATION

Denmark's National Defence Industry Association

DANISH DEFENCE AND SECURITY INDUSTRIES ASSOCIATION IS THE NATIONAL ASSOCIATION FOR COMPANIES FOCUSED ON DEFENCE, SPACE AND SECURITY:

- ➔ Promote exports: We create close dialogue and networks between the sector in Denmark and International OEM's and authorities. We arrange export events abroad, Danish Defence industry participation in international events and we represent the sector in NATO, EU and in a Nordic Context. We also act as National Focal Point for the European Defence Fund.
- ➔ Counselling and information: We give advice, information and counselling about the many rules and regulations in the sector, both in Denmark and regarding international markets. We also provide up-to-date information on domestic and international business opportunities and events of relevance for business development.
- ➔ Development of network and new relations: We open doors and establish networks including giving advice to international partners and friends on how to identify and get in contact with companies in the Danish Defence Sector. We help promote industrial cooperation and guide OEM's on opportunities and regulations in Denmark.

DI DANISH DEFENCE AND SECURITY INDUSTRIES ASSOCIATION

Is managing the interest of the most vital and innovative companies in the Defence, Space and Security Industry in Denmark. We have around 100 members all deeply engaged in the development of the sector. We develop common positions and participate in and facilitate political debates, network meetings and events.

We drive several networks for our members covering different domains, including Air, Land Sea, Space, Cyber, SME's and Emerging Disruptive Technologies.

DI Danish Defence and Security Industries Association is an integrated part of The Confederation of Danish Industries. This uniquely enables us to draw on a broad scope of competences in and outside the Defence Sector and to promote cross societal solutions.

Danish Defence and Security Industries Association

We promote a common stronghold between Defence Industry and Security Policy and contributes to essential security interests

THE STRATEGY OF THE ASSOCIATION HAS FOUR PILLARS:

Danish defence industry

- ⇒ Double turnover, employment and export
- ⇒ Create more Danish OEM's
- ⇒ Include technologies from outside the traditional defence arena
- ⇒ Strengthen inclusion of SME's
- ⇒ Strengthen competences broadly

International suppliers

- ⇒ Attract more production in Denmark
- ⇒ Attract research and development activities to Denmark
- ⇒ Strengthen strategic cooperation with Danish companies

Danish defence and security agencies

- ⇒ Define Danish security policy interests
- ⇒ Prioritise research and development
- ⇒ Focus on environment and sustainable solutions
- ⇒ Purchase Danish solutions when essential security interests are at stake

International defence and security agencies

- ⇒ Promote the use of more Danish subcontractors
- ⇒ Work to secure a level playing field on the European Defence Market
- ⇒ Work to promote Danish interest and attract funding from European Defence Fund amongst others

DI Danish Defence and Security Industries Association activates the strong voice of the Confederation of Danish Industries, when necessary. We also work to promote SME's in development and export activities of larger companies. We work to create the best conditions for the sector to be able to build competence, develop capacities and to boost exports and thereby contribute to create growth and welfare.

Moreover, DI Danish Defence and Security Industries Association works as a central hub for international suppliers of Defence, Space and Security wishing to cooperate with Danish companies.
