Webinar on Exporting Biogas Solutions to China

Kristian Nielsen
21 October 2025

Dansk Industri

Agenda

1. Welcome and introduction
2. Overview of the national biogas market. Professor Shizhong Li, Tsinghua University
3. Perspective from a large Chinese biogas producer. Mr. Haofu Luo, board chairman of Guangxi Shenzhou Environmental Protection Group
4. Danish experiences on the Chinese market.
    1. Kent Skaanning, CEO, Combigas and
    2. Thorkild Maagaard, Sales Director, Landia
5. Financing options. Lars Hostrup Sørensen, Consultant, EIFO
6. The perspective of the Danish Embassy. Martin Jørgensen, Counsellor, Team Leader Energy, Embassy of Denmark in Beijing
7. Support from Danish industry in China. Glen Mikkelsen, General Manager China, DI
8. Summary and closing remarks

IEA report

Average cost of biomethane production:
13 USD/GJ (3,4 kr./m3)

Cheapest 10%:
8 USD/GJ (2,1 kr./m3)

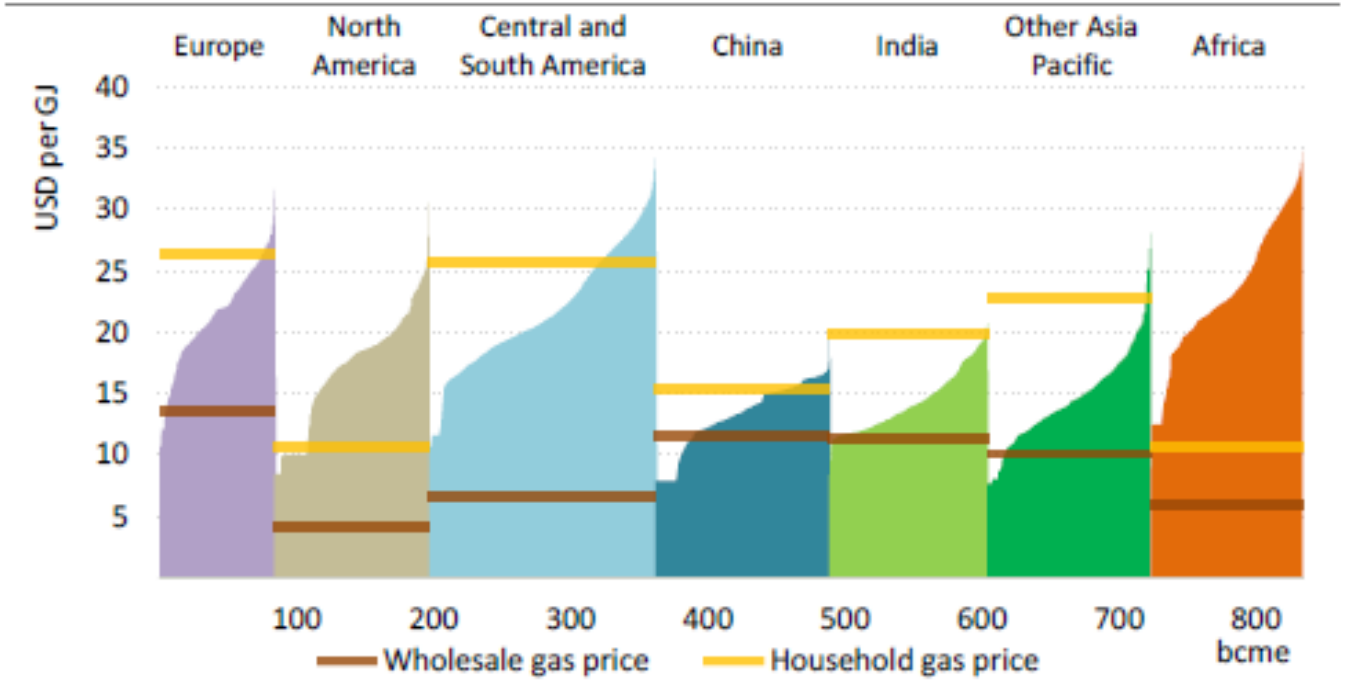
IEA report

Figure 2.9 ▷ Biomethane supply cost curves in selected regions compared with average natural gas wholesale and retail prices, 2019-2024



IEA. CC BY 4.0.

Virtually all of China's biogas potential can be produced at prices below household gas prices.

And a portion can be produced below wholesale natural gas prices

Combigas design
