

# KOREA-DENMARK WIND WORKSHOP AND NETWORKING EVENTS

The mutual commitment between Denmark and Korea has been growing to address climate change and achieve sustainable development goals in energy industry. MOU between Danish Ministry of Climate, Energy and Utilities and Korean Ministry of Trade, Industry and Energy in November 2018 represents a significant step forward in such cooperation.

In occasion of Wind Europe Offshore 2019, Embassy of Denmark in Korea, Danish Energy Agency and Confederation of Danish Industry are organizing a visit program to Denmark for Korean key public stakeholders including National Assembly, Ministry of Environment, Korea Energy Agency (KEA), Korea Electric Power Corporation (KEPCO), Korea Maritime Institute (KMI) and etc.

We cordially invite you to "Korea-Denmark Wind Workshop and Networking Events", an exclusive workshop and networking event where you will have opportunities to obtain useful information and showcase your experience and capabilities to relevant key opinion leaders in the Korean wind industry.

In addition to the above, you are invited to the Danish Ambassador's Residence in Seoul, Korea to further develop your relationship with the Korean authorities. We believe this series of events will greatly contribute to setting the ground for your future business in Korea.

**PRICE : DKK 9,950**
