

DRAFT PROGRAM - 11 December 11.30-15.30

CLIMATE ACTION TOWARDS 2030 – PRIVATE AND PUBLIC COMMITMENTS

TITLE: CLIMATE ACTION TOWARDS 2030 – PRIVATE AND PUBLIC COMMITMENTS

AUDIENCES: Public and private stakeholders, participating at the COP25 blue and green zone. The format will be open, where audience is representatives from civil society, private sector and Spanish market audience.

CONCEPT: Half-day conference with focus on public and private commitments towards a 70% CO₂ reduction towards 2030. Based on the Danish government 2030 goal, the conference will focus on a green transition in different sectors, including energy, transportation, cities and global value chains. The focus is the importance of partnerships with the private sector in order to reach both national green goals and the Paris Agreement.

SPEAKERS: Stakeholders and companies working actively with the green sector, either as a solution provider or as an agenda setting player in own global value chains by demanding green solutions. Furthermore, there will be a strive to attract international speakers to create a global context for the discussions.

LOCATION: IFEMA Green Zone (TBC – alternative, the Danish Embassy in Madrid)
