

# CHINA'S FIVE-YEAR PLAN

## OPPORTUNITIES FOR DANISH COMPANIES

10 JUNE 2021

### INTRODUCTION

Earlier this year China unveiled the new Five-Year Plan for 2021-2025 outlining key targets and focus areas for the coming years. To give an overview of the plan and where the growth will be in China in the coming years, we have invited a range of distinguished speakers who will unpack the plan and give their perspective on where China is heading and where the opportunities lie. The speakers will also provide insights to how Danish companies see the business outlook in China and how to access the Chinese market.

### WHY PARTICIPATE?

When doing business in China it is crucial to understand the long term economic journey China is on and which sectors are prioritized in the years ahead. In this webinar the speakers focus on both of these issues and highlight where the opportunities are for Danish companies.

*If you have any questions regarding the event, please do not hesitate to contact Secretary General of DCBF, Hans Henrik Pontoppidan at [hhpedcbf.dk](mailto:hhpedcbf.dk)*
