

# DI IN USA

DI has helped member companies realize their international ambitions since 1996.

Are you considering expanding your business to USA, or do you want to strengthen your business and exports to USA? We help you with advice and starting a business in USA, from establishment to business development.

## Our services include:

- Market analysis
- Partner search
- Establishment of a local entity
- Recruitment of local employees
- Access to shared office space in New York City
- Company administration and accounting services
- Business address and virtual representation

We can also assist your company in exploring the possibilities of external financing - for example, through the EKF Green Accelerator or NOPEF - to support your export adventure to the USA.

## Networks

For companies exporting to the American market, we also offer the opportunity to become part of one of our networks:

- DI USA export network for Danish Design

## Brief about DI in USA

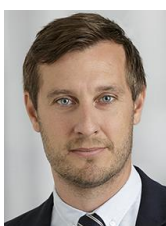

DI in USA is one of DI's international offices, from which DI offers services and advice. DI is based in New York, where DI employees and employees of member companies are based in modern office facilities.

DI has had a physical presence in the USA since 2007. Today, we are centrally located at Grand Central Station in New York City.
